Helpdesk › Synclever (Benji) › **S1801 – CALL OUT – Smith House – Gate intercom** New In Progress **Solved** 5

Description **Timesheets** 1

Date	Employee	Description	Time Spent
03/11/2026	Eisgaaq Benjamin	3 Arrived 10:15. Gate intercom had no power – tripped breaker at gate DB. Reset breaker, rebooted intercom, re-registered to kitchen panel. Tested calls and gate release from 2 panels. All working. Left 11:45.	4 **01:30**

2 **Add a line**

1 · Click the **Timesheets** tab

2 · Click **Add a line**

3 · Type what you found and what you did

4 · Enter hours on site (01:30 = 1½ hrs)

5 · Save then set the ticket to **Solved**

What a good description looks like

Good – arrival and leave time, what was wrong, what you did, how you tested it, and anything still outstanding.

Not OK – "Fixed intercom", "Site visit", "See WhatsApp". If we can't explain it to the client, we can't bill it.

Need to go back, or need parts? Add a new line for each visit, and note it in the ticket so Stafford can quote first.

Steps 5–7 · What Admin does next

Ticket 1.5 hrs logged → **SO S1801** qty → 1.5 hrs → **PO to contractor** 1.5 hrs · linked to S1801 → **Contractor bill** from the PO → pay → **Client invoice** from the SO
